John Atkinson-Abutridy

Department of Computer Sciences
 Universidad Adolfo Ibáñez
 Santiago
 Chile

Prof. John Atkinson-Abutridy is currently a professor at the Faculty of Engineering and Sciences, Universidad Adolfo Ibañez (Chile) where he also founded and leads the master degree program in Artificial Intelligence. He has been a university professor at several universities in Chile and abroad. He earned a PhD in Artificial Intelligence from the University of Edinburgh (UK), a master degree in computer sciences from Universidad Federico Santa María (Chile), and a Diploma in Space Studies from the Royal Institute of Technology (KTH, Sweden). Furthermore, he has been AI consultant and transferred some intelligent system technologies into the national and international IT industries, as well as public organizations (*i.e.*, the Chilean Army, the National Intelligence Agency, Ministry of Tourism, etc). He is also a professional member of the AAI and won the senior member award of the ACM in 2010 for his professional contributions to computer sciences. He has also mentored undergraduate and graduate students, IT professionals, and AI specialists. Early 2022, professor Atkinson-Abutridy founded AI-Empowered (www.ai-empowered.com), an AI consultancy company that offers novel solutions to address complex problems and automation needs in your organization, aiming at helping and guiding organizations into a journey towards an AI- powered company, improving your productivity, customer experience, and automation processes.
